Lace curtains done by hand, but NOT guaranteed. Curtains deteriorate rapidly while hung, and can therefore not be guaranteed.

Housecleaning

Let us do the hard part. Let us wash your blankets, quilts, pillows, lace curtains, and your Navajo blankets. That will be a real help and an assurance that your things will be well taken care of.

Phone us now.

We wash Pillows, Navajo Blankets, Rag Rugs, Canvas, etc.

Arizona Laundry

WHITE AUTOS
Adams and Third Sts.

It is a matter of Sanitation to have your quilts washed occasionally.

BUREAU OF MINES OF THE UNIVERSITY

The bureau of mines of the University of Arizona has had many inquiries concerning the short course for miners and prospectors, but desires to know definitely all those who are planning to take the courses starting October 4, in order that the proper accommodation may be made for them. This is really very necessary, owing to the fact that the dormitories of the university are already overcrowded. This would not find the students in any way should circumstances arise to prevent their coming. Short course students may secure board and room on the campus for six dollars per week, whereas if reservations are not made on the campus for them, they would be obliged to pay from ten to twelve dollars outside of the campus.

The courses for the practical miner will start about January 17, allowing them a little more time, but the stu-

dents in prospecting should have their names in as early as possible. Any further information may be had by addressing the president of the university.

EXCELLENT MUSIC AT FIRST METHODIST CHURCH

The most excellent music at the First Methodist church last spring by the quartet and chorus choir under the leadership of William Conrad Mills has caused the music committee of this church to make a similar arrangement for the coming year.

The quartet and chorus will begin their work next Sunday, the quartet singing in the morning and the quartet and chorus, Mr. Mills leading, in the evening. Dr. Barker, the pastor, will give a special vacation sermon Sunday evening on the subject: "By the Shore of the Sea." Everybody cordially invited to all services of this church.

IN CELEBRATION OF NEW WELLTON BRIDGE

October 24 Is Set for Dedication of New Crossing Over Gila at Antelope Hill

Celebrating the completion of the new state highway bridge at Antelope Hill, the people of Wellton and southern Yuma county are making arrangements for the formal opening of the structure on October 24. Announcement of the coming celebration was made yesterday through the office of the state engineer.

The new bridge over the Gila seven miles from Wellton does away with the ferry crossing at Dome on the Phoenix-Yuma stretch of state highway. It was thrown open for traffic August 25. Invitations to the celebration are being sent to Governor Hunt and other state officials as well as the board of supervisors of Maricopa county. County Engineer Charles S. Hindman of Yuma county is one of the leading spirits behind the celebration.

AN EXHIBITION OF LOCAL ART

Woman's Club Will Again Have Charge of That Interesting Feature at State Fair—Southern California Will Be Represented.

The second annual Arizona art exhibition will be held at the Arizona State Fair, November 15-20 and like the initial exhibit last January will be given under the auspices of the art department of the Woman's club, Mrs. C. F. Ainsworth, chairman.

The importance of last year's exhibit could not be recognized more conclusively than by the fact that the club has not only received the co-operation of the state fair in the undertaking, but that the fair considers it and is featuring the exhibition as one of its attractions. The committee in charge, headed by Mrs. Ainsworth, comprises Mrs. W. K. James, secretary, Mrs. H. E. Williams, Mrs. W. C. Foster and Mrs. Dwight H. Heard. The judges will be Mrs. Jessie Benton Evans, Miss Kate Cory and Maynard Dixon, while serving on the jury of selection will be Mrs. Ainsworth, Mrs. Foster, Mrs. Emory Oldaker, Mrs. Roy Thomas and Miss Noble.

There will be an invited exhibit from southern California collected by Benjamin Brown, who is officially connected with the Panama-Pacific International exposition.

Mrs. Evans will exhibit her "Little Lace Maker," now at the exposition and Mr. Dixon's Arizona sketch that was awarded a bronze medal will also be in the Arizona exhibition as will be a group of Kate Cory's Indian studies.

The conditions of the art exhibition have been compiled by the committee in charge and with the list of premiums have been arranged in pamphlet form by the fair officials. It follows:

Original work only will be acceptable for exhibition.

The competitive exhibit is open to all artists.

Entries not exceeding five in number will be received from each intending exhibitor and placed in the exhibition if favorably passed upon by the jury of selection.

Artists desiring to submit works for the exhibition must file their names before October 20, 1915, with the secretary of the art exhibition committee, Mrs. W. K. James, East McDowell road, Phoenix, Arizona.

Entry blanks may be obtained from T. D. Shaughnessy, secretary, State Fair Commission, Phoenix, Arizona. Transportation charges must be borne by the exhibitor in both directions, excepting that return charges on prize winners will be paid by the fair commission. Storage in Phoenix will be at the exhibitor's risk, although all possible precaution will be taken to insure safety, and special guard will be in attendance night and day at the gallery during the entire exhibition.

All classes of pictures intended for competition must be suitably framed.

Labels must be attached to the back of the frames showing entry number.

All entries will positively close November 6th, 1915.

All exhibits must be delivered to the art department in the Woman's building at the State Fair Grounds not later than Friday, November 12th, 1915, 5 o'clock p. m. in order to be Saturday, November 13th, at 9 o'clock a. m.

Prices of work for sale will be on file with the secretary of the committee and furnished on application.

Each piece of china must be marked with the exhibitor's number (use stickers for number).

No picture or article in this class will be received unless the above rules are complied with.

AGAINST SPECIAL BISHOPS

[ASSOCIATED PRESS DISPATCH]

SAN FRANCISCO, Sept. 17.—Lay and clerical delegates to the California annual conference of the Methodist Episcopal church, went on record as opposed to having special bishops for particular races and languages and to giving missionary bishops the power to preside over general conferences and to the board of bishops exercising the power of a supreme court. H. E. Williams, of Stockton, was elected president of the lay association.

DIES FROM MYSTERIOUS GAS

[ASSOCIATED PRESS DISPATCH]

SALT LAKE, Sept. 17.—Hundreds of miners stood about the Quincy tunnel of the South Hecla property at Alta unable to rescue James Hendrickson, a mining engineer who died in a drift, the victim of a mysterious gas which asphyxiated him although he wore a miner's helmet. Captain Elkren of the Salt Lake fire department and his companion were rescued after being overcome trying to reach Hendrickson. More than a dozen miners were overcome attempting a rescue.

EMERY ACCOUNTS SHORT?

[ASSOCIATED PRESS DISPATCH]

LOS ANGELES, Sept. 17.—Fred Emery, head of the insurance department of the Los Angeles Investment company, is under surveillance tonight while the district attorney is prepared to file a complaint in

AMERICAN CAVALRYMEN

(Continued from Page One)

continued to fire upon the American bank, with the cavalry blazing back.

Villa Promises Protection

EL PASO, Sept. 17.—Uneasiness as to General Villa's reception of the news that the state department had advised Americans to leave Northern Mexico, were dispelled by a message from Villa stating he did not believe the summons of the Americans to the border presaged the recognition of General Carranza by the United States. He said that Americans would be protected as before in his territory.

He pointed out that no complaints had been made for many months of violence in the territory under Villa control with the exception for acts of bandits. A train bearing fifty Americans and other foreigners arrived at Juarez, the first in response to the summons. All were from Torreon and included the German colony there. The American Smelting Refining company plants have closed down throwing 10,000 out of work.

Fighting At Martinez

NOGALES, Sept. 17.—Fighting between the troops of General Calles and the forces of Governor Maytorena occurred at Martinez, twelve miles east of here. The casualties are reported heavy. The report did not say which side was victorious.

Monteclova Is Occupied

DOUGLAS, Sept. 17.—General Calles stated he had received a telegram from General Carranza announcing the occupation of Monteclova, the capital of Coahuila. The message said that Villa military trains were captured. There was no mention of casualties. The troops of Maytorena are concentrating in the suburbs of Nogales. There was outpost fighting yesterday.

Campaign Is Abandoned

LAREDO, Sept. 17.—That Carranza forces have abandoned temporarily their proposed campaign against Torreon is semi-officially announced. A new plan conceived at Vera Cruz contemplates an early attack on Juarez.

The capture of Juarez would be followed by a march on Chihuahua and then Torreon.

Advance to Acaponeta

MAZATLAN, Sept. 17.—Three thousand Villa troops under General Buena advanced to Acaponeta, 70 miles south of here where 7,000 Carranza troops are ready for an engagement. There are indications that an active campaign is to be begun. General Turbe has been relieved of his command on orders from Obregon and left for Manzanillo. Lack of active operations is supposed to have caused his downfall. A Carranza column under Estrada is reported advancing on Tepic from the south. The United States cruiser Raleigh is here.

WILL WORK FOR LOW

(Continued from Page One)

on the eve of his probable return the story of going the rounds that an effort may be made by some of the commissioners to reject the bids and to direct

the city manager against advertising for new bids.

These citizens who have been waiting patiently for a lowering of insurance rates in this city are beginning to voice their objections to such a procedure on the grounds that this would mean not only no lowering of the rates, but might, to the contrary, result in a further increase.

Thousands of dollars are spent annually in Phoenix in fire insurance premiums and with a substantial reduction in insurance rates, thousands of dollars could be saved to the citizens of Phoenix. As the further improvement of the fire department seems to be the one means by which a lowering of rates may be hoped for, these citizens are planning to place their position squarely before the city commission and demand that they hasten action looking to the purchase of an adequate fire engine. An effort will also be made to expedite the clearing of the way to the installation of an adequate fire alarm system. These steps taken, the citizens will then be fortified to make formal demand upon the underwriters for a re-rating of the city with the end in view of securing a lowering of the insurance rates.
